

a measurable difference...

Cutting Press, Pneumatic

Model: C0050

The IDM Cutting Press Pneumatic is fast and easy to operate, used for sample preparation of various different sized test pieces. Tool Steel and Ruler Dies of standard and custom sizes can be used and interchanged with ease, allowing a large range of dies to be used with the Cutting Press. Cutting dies can be fixed onto the moving top plate, or can sit directly onto the sample, allowing the user to change the dies with ease. The IDM Cutting Press Pneumatic is one of the easiest and versatile cutting presses to operate on today's market. It is compact in size and fits onto a work table to conserve work space. The Cutting Press is great for laboratory use and low volume production.

Applications:

- Paper
- Cartonboard
- Polyurethane
- Plastics
- Foil
- Textiles
- Rubber
- and many other materials

Features:

- 3 Tonne capacity
- Cutting area: 300mm x 300mm
- 60mm Opening
- 95mm clearance from press plate to cutting board
- Front load for easy operation
- One or more sheets can be cut simultaneously
- Replaceable Cutting Boards

Options:

- Custom cutter sizes available upon request
- Safety guard
- Various sized Cutting Dies can be used with the Cutting Press

Connections:

- Air supply: 80 — 100 psi

Dimensions:

- **H:** 705mm
- **W:** 370mm
- **D:** 450mm
- **Weight:** 140kg

Can be used with the following Cutting Dies

C0024
