

The Mickle Ink Pipette

The Mickle Ink Pipette is a fast, efficient and clean method of measuring and applying a precise volume of ink to the Mickle Proofer. It has been designed for ease of use and is clearly marked with graduations of 0.1 ml enabling the operator to measure an accurate and repeatable volume of ink up to 1.0 ml in 0.05 ml increments.

The Mickle Ink Pipette is manufactured from corrosion resistant stainless steel and brass and can be easily dismantled for cleaning.

- Strong and robust construction.
- Clearly engraved for ease of use.
- Polished stainless steel surfaces for easy cleaning.
- Solvent resistant.
- An economical way to accurate results.
