

*a measurable difference...*

## BGI Universal Force / Torque Gauge

The innovative BGI Universal Force / Torque Gauge is the ultimate in force and torque measurement flexibility. With all the features of the Series BG, coupled with compatibility with a wide selection of interchangeable force and torque sensors, the BGI is a versatile solution for many force and torque testing applications. All sensors are fully interchangeable and do not require additional configuration or calibration.

### Series STJ

Universal torque sensors, fixed chuck

### Series STH

Universal torque sensors, interchangeable attachments

### Series STE

Wrench extension torque sensors

### Series STC

Static torque sensors

### Series STB

Closure torque sensors

### Series SS

Tension / compression sensors

### Series SSM

Inline tension / compression sensors

### Series SJR

Miniature tension / compression sensors

### Series SBC

Compact compression sensors

### Series SHP

Ergonomics testing push / pull sensors
