

a measurable difference...

Spectro Guide

The Spectro-Guide measures both Colour and 60° gloss in one easy to use hand-held instrument. Complying to international standards, the tolerances for colour and gloss allow quick pass/fail criteria in the production process. The Spectro-Guide unit can measure in even the most difficult to access areas, with its unique ergonomic design. The Spectro-Guide comes with serial RS 232 connection and the Easy-link software, allowing all direct data transferred into Excel and displayed in a professional looking QC-Report.

Application:

- Paper
- Cardboard
- Packaging
- Plastics

Features:

- Ergonomic unit
- Light weight
- Designated buttons for standard and sample readings
- Customised display
- Rugged, compact design
