Torsion Bending Fatigue Tester

Model: SPM – TBF

The Torsion Bending Fatigue Tester has been specially designed and manufactured with relevance to International Standards to determine the water tightness as well as the corrosion resistance of the steel cords in the conveyor belts, at the same time.

The Torsion Bending Fatigue Tester requires the steel cords to be opened during testing; therefore delivering information on the rubber penetration and the rubber coating of the steel cords.

Application:

- Rubber

Features:

- Motor Driven
- Chuck Assemblies (6)
- Water Container
- Height Adjustment Knobs
- Angle Adjustment Knobs
- Control Box

Standards:

- N/A

Options:

- N/A

Connections:

- **Electrical:** 220/240 VAC @ 50 HZ or 110 VAC @ 60 HZ

(please specify when ordering)

Dimensions:

- **H:** 575 mm
- **W:** 1,120 mm
- **D:** 875 mm
- **Weight:** 85 kg

10-11 Colrado Court, Hallam, Victoria 3803 Australia.
